

Rene Klijn - Mister Blue

Winter sounds are crying like the old man's slowly dying
And the only sound, the wind that fills the trees
Even colder comes the moon and though it never seems to soon
Sudden stillness as the rainfall starts to freeze

I'm mister Blue,
I'm here to stay with you
And no matter what you do
When you're lonely, I'll be lonely too
Oh mister Blue,
I'm here to stay with you
And no matter what you do
When you're lonely, I'll be lonely too

A young girl she's shaded, bears the scars that never faded
Of the baby that was born on Christmas day
While the heavens sing their song, a child his life is never long
Cause the food supplies will only last a day

I'm mister Blue,
I'm here to stay with you
And no matter what you do
When you're lonely, I'll be lonely too
Oh mister Blue,
I'm here to stay with you
And no matter what you do
When you're lonely, I'll be lonely too

Patriot emotion is the cause of the commotion
After all there's really no one here to blame
Soldiers taking orders cause they must defend the borders
Of our nation and the other side is the same

I'm mister Blue,
I'm here to stay with you
And no matter what you do
When you're lonely, I'll be lonely too
Oh mister Blue,
I'm here to stay with you
And no matter what you do
When you're lonely, I'll be lonely too

I'll come to you at night, when all the world is sleeping tight
And lie beside you till the early morning dew
You can't hear me, you can't see me, you can't feel me when you read
The folded letter she left addressed to you

I'm mister Blue,
I'm here to stay with you
And no matter what you do
When you're lonely, I'll be lonely too
Oh mister Blue,
I'm here to stay with you
And no matter what you do
When you're lonely, I'll be lonely too
I'm lonely too
